Subject: Final Report of the DSB Task Force on the NNSA Strategic Plan for  
Advanced  
Computing

Good Afternoon,

The following comment is provided in response to the subject action:

DTRA has reviewed the Final Report of the Defense Science Board (DSB) Task Force on the National Nuclear Security Administration's (NNSA) Strategic Plan for Advanced Computing. We concur with the findings and recognize that the continued leading-edge HPC development nurtured by the NNSA's Advanced Simulation and Computing program is extremely beneficial to the Agency's HPC program, the DoD HPC Modernization Program that provides our computational resources, and the joint numerical modeling and simulation efforts the Agency shares with NNSA.

Thank you and have a wonderful day!

Vivian A. Batchelor
